HARRIET'S RETURN

BASED UPON THE LEGENDARY LIFE OF HARRIET TUBMAN

written by and starring

KAREN JONES MEADOWS

directed by

JAKE WALKER

HARRIET'S RETURN chronicles the private and public life of famed Underground Railroad conductor, spiritual icon, and revolutionary Harriet Tubman, whose life spanned nine decades and still influences the consciousness of people around the world. Ms. Meadows portrays more than thirty colorful characters who take the audience from contemporary America into the depths of Ms. Tubman's soul, the psyche of a nation, and a call to action.

I have never seen a performance as confident and devastating --I have never seen an audience so filled-to-bursting, so unanimously primed for a standing ovation as was Jones Meadows' at the end of her triumphant performance.

— Jim Terr, Public Radio

Karen Jones Meadows is magnificent, the best. The performance...the story...the energy... the truth...all flawless. We were so honored to be there.

— Pauline Copes-Johnson
(Harriet Tubman's Great-Grandniece)
